

Statement on the topic of RoHS (EU Directive 2015/863 and 2011/65/EU) and ElektroStoffV

OTT-JAKOB Spanntechnik GmbH is a manufacturer in accordance with EU Directive 2011/65/EU of the European Parliament and of the Council of June 8, 2011, which restricts the use of certain hazardous substances in electrical and electronic equipment.

We also comply with Commission Delegated Directive 2015/863 of March 31, 2015, which amends Annex II of Directive 2011/65/EU. In Germany, the RoHS Directive is implemented through the Elektrostoffverordnung (ElektroStoffV).

OTT-JAKOB is aware of these directives and regulations, as well as the associated obligations. Our products that fall under these regulations and are not exempt under Article 2, paragraph 4, are manufactured in compliance with the regulations. We confirm this demonstrably with the declaration of conformity that is included with each affected device. In doing so, we partially utilize the exemptions in Annex III, particularly points 6 and 7.
